

FIG. 1 is a block diagram of a system 100. The system 100 includes a first node 101 and a second node 103. The first node 101 and the second node 103 are connected via a cluster interconnect 105. The first node 101 is connected to a RAID array 107 via a connection 111. The second node 103 is connected to a solid state disk 109 via a connection 111. The RAID array 107 is connected to the solid state disk 109 via a connection 111.
